### EDUCATION

#### AN-NAJAH NATIONAL UNIVERSITY

2022 - Now

Computer Science Apprenticeship Path Software Engineering.

### SUMMARY

My name is Mohammed Hussain, and I am a fourth-year Software Engineering student. My passion for technology and problem-solving has driven me to continuously develop my skills. I aspire to build my career either as a Full-Stack Developer or as a Software Tester, where I can combine technical proficiency and attention to detail to create effective digital solutions and ensure high software quality.

### EXPERIENCE

#### Asal Technologies

##### Quality Assurance (Training1) & QA Automation Engineer (Training2)

Jul 2025 – Now

- Completed a QA training program, creating and executing test cases, reporting bugs, and using Playwright for basic automation.
- Currently working on automation using Selenium, building reliable test scripts and enhancing overall test.

#### UDACITY

##### Front-End Development & Full-Stack Development

Feb 2025 | Oct 2025

- Front-End Development: Developed responsive web applications using HTML5, SCSS, JavaScript, and RESTful APIs (Node.js/Express.js) with Webpack.
- Full-Stack Development: Developed full-stack applications by building backend APIs with Node.js/Express.js and creating dynamic, responsive front-end interfaces using Angular.

### PROJECTS

#### TRENDELLA

Jun 2025 - Sep 2025

##### Full-Stack Web Application

- Full-stack e-commerce platform for clothing built with Angular & Laravel. Features include product browsing, cart management, secure checkout, and an admin dashboard for managing users and inventory.

#### ONLINE JOB PORTAL SYSTEM

Apr 2025 - June 2025

##### Full-Stack Web Application

- Developed a web application that connects job seekers with employers, using Angular for the front-end and Laravel for the back-end.
- Implemented core features including job search, application management, user profile handling, and job posting & application tracking for employers.

#### BOOKIFY

Oct 2024 - Jan 2025

##### Full-Stack Desktop Application

- Successfully led the end-to-end development of a full-stack application, from project planning to deployment. Key features include book reservation, librarian management, and user authentication.
- Designed and implemented a robust reservation system to manage bookings, extensions, cancellations, and deletions efficiently.

#### SECRETS OF CITIES

Jan 2024- Apr 2024

##### Back-End Web Development Project

- I collaborated with a team of eight to develop a platform that helps visitors organize their itineraries with tour guides and discover hidden gems in Palestine.
- I oversaw the project's lifecycle from concept to implementation, ensuring seamless integration between the front-end and back-end.
